

EDUCATION

Bangor University, UK
MSc Environmental Forestry (1:1)

University of London, UK
PhD Social Anthropology

University of London, UK
MA Anthropology of Development

University College Dublin, IRL
BA Information Science

LICENSES, CERTIFICATIONS, & AFFILIATIONS

Registered Forester Soc. of
Irish Foresters # 1125

Transport Canada Drone
Pilot # PC2319332088

CA Inst. Of Geomatics
Technical A # 57645334

CA Inst. Of Forestry
Technical A ID #
62439275285

Transport Canada Pleasure
Craft Operator #42621992113

SEAMUS MURPHY | FOREST ANALYST

Seamus Murphy, PhD, joined TÜV SÜD as a forest carbon analyst and geospatial specialist in January of 2026. With over ten years of experience supporting REDD+ and jurisdictional forest carbon programs across international contexts, he is a professionally accredited VVB assessor who has led technical assistance for ARTREES validations, conducted Monte Carlo simulations of emission factors, implemented IPCC Tier 2 methodologies, and delivered national-level risk and uncertainty assessments. Seamus has served as a verification forester for projects under ACR, ARB, VCS & PEFC standards, supporting validation and monitoring efforts through advanced GIS, remote sensing, and time-series analysis. He holds a PhD in Social Anthropology from the University of London (SOAS) and a Master of Science in Environmental Forestry from Bangor University, and brings extensive experience in enterprise-scale geospatial database management, MRV system design, and interdisciplinary research across Europe, Africa, and North America.

WORK EXPERIENCE

TÜV SÜD America, Inc (formerly FRST Corp) | Grass Valley, CA

Forest Analyst

Jan 2026 – Current

- Forest analyst for forest carbon project verification and validation services
- Carbon quantification and verification pursuant to multiple carbon methodologies protocols including CA Air Resources Board Compliance Offset Projects, American Carbon Registry Improved Forest Management, and numerous AFOLU methodologies pursuant to Verified Carbon Standard, among others
- Field forestry including layout, marking, mensuration, inventory, and field data collection
- Custom GIS and field data collection solutions, database management, and quantification tools and procedures

Winrock International | British Colombia, Canada

REDD+ Consultant

Jan 2024 – Dec 2025

- Led technical assistant for jurisdiction REDD+ programs undergoing ART-TREES validation and UNFCCC assessment of national forest reference level.
- Developed reproducible GHG workflows for PDD's of VM0048, SDVista & CCB projects.
- Designed Monte Carlo simulations of emission factors uncertainty complaint with ART 2.0.
- Coordinated MRV support, audit-ready training, repository design & corrective action plans.
- Implemented IPCC Tier 2 stock-change & flux-based methods in AGB & SOC reporting.
- Delivered technical report on nesting potential and risk assessments across national jurisdictions.

SCS Global Services | British Colombia, Canada

Verification Forester

Jan 2023 - Dec 2025

- Served as lead auditor of forest carbon offset project under ACR, ARB and VCS Standards.
- Assessed biomass estimation methods, emissions reductions statements, & canopy disturbance.

- Conducted field audits of inventory methods and monitoring protocols under ACR (V8.0)
- Served as support auditor in validation of VCS methodologies (VM0009 and VM0015)
- Developed scripts for analysis of Sentinel-1 and Sentinel-2 time-series.

Veon | Dublin, Ireland

GIS & Certification Manager

Jan 2022 - Dec 2022

- Led quality control and design of company's mapping products.
- Assessed Supervised PEFC activities & reporting, stakeholder & client engagement.
- Trained staff on GPS calibration, testing, data projection & submission.
- Developed company's Geospatial Strategy & coordination iterations.

Cabin Resources Management | British Colombia, Canada

Resource Analyst

Jan 2020 - Dec 2021

- Designed scripts for LiDAR processing, canopy modelling, tree height variance metrics, enhanced inventory of Williams Lake TSA.
- Implemented GPS accuracy testing to verify contract geodata targets.
- Built tools for scaling inventory, wildfire & forest health data.
- Led cutblock surveys, riparian classification, soil sampling, retention mapping, road engineering estimates & beetle outbreak mapping.

Nature Conservancy of Canada | British Colombia, Canada

Remote Sensing Technician

Jan 2020 - Dec 2022

- Led quality control and design of company's mapping products.
- Assessed Supervised PEFC activities & reporting, stakeholder & client engagement.
- Trained staff on GPS calibration, testing, data projection & submission.
- Developed company's Geospatial Strategy & coordination iterations.

Biology Dept. | Bangor University, United Kingdom

Teaching Assistant, Biostatistics

Jan 2019 - Dec 2020

- Supervised practicals for 73 BSc students taking Biostatistics module.
- Provided one-to-one tutoring on prey-predator modelling in SPSS.
- Coordinated online learning and lesson plans in Blackboard Collaborate.

The WorldFish Center | Cairo, Egypt

Postdoctoral Fellow

Jan 2016 - Dec 2019

- Designed logical frameworks, monitoring & theory-of-change workshops.
- Surveyed consumption, retail, women's empowerment (ODK & 1,000minds).
- Established the EWFiRE enterprise hub & ASMAKNET market platform.
- Successfully tendered funding proposals: EWIRE (€396k, European Commission), YEAG (CHF586k, Swiss Dev Agency), ACLiSAT (\$1.3m, IFAD)

Institute of Development Studies | University of Sussex, United Kingdom

Researcher Officer

Jan 2015 - Dec 2016

- Surveyed resource constraints to zoonoses surveillance & response (ZELS).
- Coordinated conference of Tanzania Livestock Modernization Initiative
- Provided academic supervision to MSc & PhD students in International Development, Mr. C. Manyozo & Dr.V Barasa.

AREAS OF EXPERTISE

- GIS & Databases: ArcGIS, QGIS, SNAP, PolSAR, SAGA, ENVI, Earth Engine, GeoMQTT, WebODM, NVivo, PowerBI, FieldMaps, QField, GRASS
- Languages & Platforms: R, Python, STATA, SPSS, SQL, GitHub, Arcade, Quarto, Shiny, Linux, Unix
- Libraries: rSTAC, GDAL, LAStools, OTB, geopandas, numpy, terra, stars, caret, spatstat, lidR, xgboost, svm, randomForest
